

# Weatherization Assistance Program

---

## How much assistance does the program provide?

EOAC is required to explain all the possible services provided by the Weatherization Assistance Program as part of its client education. EOAC has a limited amount of money that can be spent on any particular home. Therefore, the work done on each home will be different based on the homes condition, amount of energy used to heat and cool the residence and program guidelines set by the Texas Department of Housing and Community Affairs. The initial assessment of your home DOES NOT guarantee that you will be eligible for weatherization services.

---

## What is Weatherization?

The Weatherization Assistance program performs minor repairs to your home to prevent air from escaping or entering the house. Weatherization measures strive to assist you to maintain a more comfortable temperature level in your home and save you energy dollars. Homes that need weatherization will typically have cracks, holes, and other places where air leaks in and out.

---

## What type of work can Weatherization do for my home?

- Repair or replace low energy efficient heaters or AC (Central or Window)
- Install attic and/or wall insulation
- Repair doors
- Repair windows
- Replace broken glass and glaze around loose panes in windows
- Weatherstripping arounds doors and attic hatches
- Patch holes in walls where air is coming in or out of house
- Patch holes in floors and ceilings
- Caulk around window and door frames
- Wrap exposed water pipes
