**Weatherization Assistance Program**

***WEATHERIZATION ASSISTANCE IS NOT A REHABILITATION PROGRAM AND DOES NOT ADDRESS THE APPEARANCE OF YOUR HOUSE.***

The Weatherization Assistance Program performs minor repairs to your home to prevent air from escaping or entering the house. Weatherization measures strive to assist you to maintain a more comfortable temperature level in your home and save you energy dollars. Homes that need weatherization will typically have cracks, holes, and other places where air leaks in and out. Here is a list of the types of work that the weatherization program may address:

- Repair or replace low energy efficient heaters
- Repair or replace low energy efficient air conditioners
- Install attic and/or wall insulation
- Repair doors
- Repair windows
- Replace broken glass and glaze around loose panes in windows
- Weather strip around doors and attic hatches
- Patch holes in the walls where air is coming in or out of the house
- Patch holes in floors and ceilings
- Caulk around window and door frames
- Wrap exposed water pipes

The weatherization program does not provide funds for painting your house, installing new carpet or vinyl flooring, or storm doors.

**\*How much assistance does the program provide?**

EOAC is required to explain all the possible services provided by the Weatherization Assistance Program as part of its client education. EOAC has a limited amount of money that can be spent on any particular home. Therefore, the work done on each home will be different based on the homes condition, amount of energy used to heat and cool the residence and program guideline set by Texas Department of Housing and Community Affairs. The initial assessment of your home **DOES NOT** guarantee that you will be eligible for weatherization services.

## **Landlord Form**

The following form is to be completed by the Landlord if you are renting the house in which you are requesting weatherization services.

If you own your house, you are not required to complete the following Landlord form.

## LANDLORD PERMISSION TO PERFORM ASSESSMENT & INSPECTIONS FOR RENTAL UNITS

Your single-family building is under consideration to receive services from the Weatherization Assistance Program (WAP). Texas Department of Housing and Community Affairs (TDHCA) administers the WAP Program in Texas. The WAP operates under Federal and State rules which have certain requirements of which you, as a single-family building landlord, should be aware. At the bottom of this page is a PERMISSION TO ENTER PREMISES section granting your permission for: EOAC (agency) to enter your building to perform energy audits, collect eligibility documentation from your tenants, and complete applications.

Before work begins on your building, you will be required to sign a Landlord Agreement, a copy of which is attached for your review. Please be aware that only residential units may be weatherized. Exceptions to this requirement can be made when the owner is an income-eligible applicant or a non-profit entity. The financial commitment may be in the form of monetary contributions (checks or money orders), materials, or labor provided to install eligible measures. All monetary contributions provided by landlords will be used for labor and materials. The estimated cost of each building will be based on an energy audit that is performed on the building. When the energy audits are completed, the local weatherization agency will contact you to discuss the proposed weatherization measures for each building and your financial commitment to the project and the Landlord Agreement. After weatherization services have been provided, the local agency is required to conduct a quality control inspection to ensure that work was completed in accordance with the standards set forth by the WAP. It is your responsibility to assist the local agency staff in gaining entrance to your property.

### PERMISSION TO ENTER PREMISES

I, \_\_\_\_\_, as landlord/authorized agent for building located at \_\_\_\_\_, have read and understand the above and hereby grant permission for representatives of EOAC to enter these premises for the purposes of conducting energy audits and collecting eligibility documentation from the residents, including applications, and to perform the weatherization work.
